Two panel hood with grey contrast drawcord

Front pouch pocket

Safety Ratings Explained

EN ISO 20471: 2013

Standard for high visibility clothing which is capable of visually signalling the user's presence.

Class 1: Minimum Level

Minimum protection for persons working on private roads or to be used with higher classed garments.

Class 2: Intermediate Level

Required for any persons working on or near A and B class roads, also for delivery drivers.

Class 3: Highest Level

Highest protection level for persons working on or near motorways, dual-carriageways, or airports.

EN 342:2017

Specifies requirements and test methods for protective clothing designed to protect against cold environments, with temperatures as low as -5°C or lower.

EN 343:2019

Specifies requirements for protective clothing designed to provide protection against rain and inclement weather.

EN 388:2016

Specifies requirements for protective gloves designed to provide protection against mechanical risks.

EN 13688:2013

Specifies general performance requirements for protective clothing.

EN 17353:2020

Specifies requirements for enhanced visibility equipment intended for non-professional use.

RIS-3279-TOM

Specific to the UK rail industry, setting minimum requirements for high visibility clothing for railway workers. Replaced the older GO/RT 3279 standard in 2017.

ANSI/ISEA 107-2020

Provides guidelines for the design and performance of high-visibility clothing to ensure worker safety in various environments.

Type O Class 1 - For off-road use

Provides added visibility for workers not exposed to traffic.

Type R Class 2 & 3 - For roadway use

Enhances visibility for workers exposed to traffic and working against complex backgrounds.

Type P Class 2 & 3 - For public safety

Enhances visibility for emergency responders, incident responders, and law enforcement personnel in both roadway and off-road environments.

89/686/EEC directive

European regulation setting out requirements for personal protective equipment (PPE) to ensure user health and safety.
